

History

Thecnoglass, a leader in the manufacturing of tempered, laminated, insulated, and curved glass, was founded in April 1994 due to high demand for quality products, competitive prices and on-time deliveries.

Mission

Our mission is glass transformation and distribution thru high manufacturing technology, completely satisfying and fulfilling our customers expectations in quality and service, maintaining our competitiveness through empowerment, and thus contributing to our companies permanent growth and prosperity adequately and fairly compensating the members of our organization, their families, stockholders and society in general,

Vision

Our vision is to be leaders with our products worldwide, with the highest quality and service, by means of highly trained and motivated human capital engaged with their mission.
